1. Drayage Service:

Drayage service includes unloading the vehicle, delivery to booth, removing empty containers for storage during the show, returning the empty containers to your booth after the show, delivering materials back to the dock and loading them into the vehicle in the loading area. **This service will be charged using the tariff listed below only applies for the services according with the schedule provided** from the organizer for each exhibitor, the service must be paid before the service be done. The drayage service includes one positioning in your booth area, any additional service will have an extra charge. It is responsibility of each exhibitor to have personnel in your booth for the positioning of the material once, otherwise will be an extra charge, the machinery should have the suitable packing for the transportation and handling, our insurance will not apply if the material or machinery doesn't have the suitable packing according with the international transportation specifications.
