Wooden Packaging such as skids, crates, pallets etc. must have Certificate of Fumigation or authorize fumigation stamp on the wood.

FOOD, BEVERAGE & TEXTILES

Certain Products (foodstuffs, seeds, grains, beverage, chemicals, textiles, and leather) require permits and certificates issued by an appropriate Mexican Government. Do not ship without preadvising above products. This can delay customs clearance. CargoLive can assist in obtaining these permits, but we must be advised of these products at least 2 months in advance before the product is shipped.

HAZARDOUS GOODS

Shipments containing hazardous goods require special handling and documentation. Many steamship lines, airlines and trucking companies have strict regulations which dictate that such shipments be moved separately, properly documented and packed in strict accordance with current laws and regulations. If you plan to ship hazardous materials,

Todos los productos deberán venir correctamente empacados o embalados con las cajas o protecciones adecuadas para la transportación y manejo de la carga.

Todas sus cajas en la aduana obligatoriamente se hace una inspección y estas deben ser abiertas por las autoridades. Le pedimos que NO embarque nada que no venga declarado en sus Facturas Comerciales/Listas de empaque, ya que esto causará retrasos y posibles costos adicionales.

En caso de ocupar embalajes de madera, como cajas, pallets o cualquier otro, deberán haber sido tratados mediante proceso de fumigación y traer Certificado y sello de Fumigación.

ALIMENTOS, BEBIDAS Y TEXTILES

Si usted piensa traer alguno de estos productos, le pedimos enviar sus documentos para revisión con 60 días de anticipación, ya que estos productos están sujetos a permisos de las autoridades mexicanas, que toman de 30 a 45 días hábiles para obtenerse. Por favor no embarque ninguno de estos productos sin antes consultar con nuestra oficina en México.

Por lo que le pedimos embarcar estos productos de forma separada y enviarlos con la documentación de acuerdo con las legislaciones y reglamentos establecidos. Si está

SALE OF GOODS

If you want to sell any material, this can only be done if the buyer is a Mexican company or a person who has an import license.

CargoLive is jointly liable with Mexican Authorities, therefore it is mandatory to make a change of regime changing from a temporal to a permanent import and it is necessarily making the payment of duties and taxes according with current rates and regulations. This service is an additional fee, which can be covered by the buyer or by the exhibitor.

We are unable allow the buyer to take the goods without having paid the taxes, so that the goods shall be under our custody during the process of nationalization or regularization and once you get the final import, we will coordinate the delivery of goods.

All expenses for this additional service must be paid in total before the delivery of goods.

Mexican Value Added Tax (I.V.A.) of 16% will apply to all services rendered in Mexico. Items for permanent importation into Mexico will be subject to payment of Customs Duty and I.V.A.

VENTA DE MERCANCÍA

Si usted desea vender algún material de su exhibición, lo podrá hacer siempre y cuando su comprador sea una compañía mexicana o persona que cuente con Padrón de Importadores.

CargoLive es responsable solidario de la mercancía ante las autoridades mexicanas, por lo tanto, es obligatorio hacer un proceso de cambio de régimen de importación temporal a definitiva, para lo cual se requerirá del pago correspondiente a los impuestos por Importación Definitiva, de acuerdo con las tasas y regulaciones vigentes. Este servicio tiene un costo adicional, el cual puede ser cubierto por el comprador o por el expositor.

No se permitirá que el comprador se lleve la mercancía sin haber realizado el pago de impuestos, por lo que la mercancía quedará bajo nuestra custodia durante el trámite de nacionalización o regularización y una vez que se obtenga la importación definitiva se coordinara la entrega de mercancía.

Los gastos que este procedimiento genere deberán ser cubiertos en su totalidad antes de la entrega de la mercancía al comprador final.

REGULATIONS/ RESTRICTIONS

Items for temporary import into Mexico (any item which will be re-exported from Mexico at the end of the show) must be packed and invoiced separately from those items that will remain in Mexico (sold, distributed, or given away).

Descriptions for all items being sent to Mexico should be **simple and easily understood**. The description must also indicate model and serial numbers and they must match the actual items being shipped. Any discrepancies discovered by Mexican Customs will result in the confiscation of the entire shipment. Neither CargoLive nor our agent is responsible for the accuracy of the documents prepared by the exhibitor; therefore, we cannot accept any responsibility for the result of inaccurate invoices or certificates of origin.

We do not recommend exhibitors hand carry exhibit materials to the show, or ship through courier companies. Mexican customs operate on a random RED LIGHT/GREEN LIGHT system. If you receive a red light your packages will be searched, and any items deemed not to be personal effects may be detained. If this happens you will need to enlist the assistance of a Mexican Customs Broker to lodge a formal clearance to obtain release of your goods. This process will prove to be expensive and may take several days to complete.

Mexican customs will not accept the term "No Commercial Value" for any item. For giveaway items, we suggest you use the lowest possible realistic value. For saleable material, your commercial invoice must reflect the price at which you plan to sell the item. Once a value is stated on an official document it cannot be changed. Mexican Customs reserves the

REGULACIONES Y RESTRICCIONES

Cualquier discrepancia entre el material físico y lo declarado en los documentos, se correará el riesgo de la confiscación de la mercancía en Aduanas. CargoLive ni los agentes de carga serán responsable del contenido en los documentos elaborados por el expositor, por lo que no seremos responsables de cualquier inconveniente a causa de discrepancias y las cuales podrán generar gastos adicionales.

Le recomendamos no **llevar con usted material de exhibición** ya que, en la aduana del aeropuerto, o embarcar a través de empresas de mensajería. Podrían hacerle una revisión y corre el riesgo de que le detengan sus productos al no considerarlos como de uso personal y en este caso, deberá contratar a un agente aduanal para poder liberar sus mercancías. Esto podría resultar un proceso costoso y tomar muchos días hábiles para su liberación.

La aduana en México no acepta el término "Producto sin valor comercial" para ningún tipo de producto declarado en las facturas. Para folletos o productos promocionales, le sugerimos dar un valor muy bajo. Para productos que pudieran venderse en el evento, la factura deberá indicar el precio al que se pretende
